IAALD

**International Association
Of Agricultural Information
Specialists**

**A worldwide network
of Agricultural
Information Specialists**

What is IAALD?

IAALD – The International Association of Agricultural Information Specialists, established in 1955 – facilitates development of and communication among members of the agricultural information community worldwide

- **IAALD's goal** is to enhance access to and use of agriculture-related information resources
- **IAALD promotes** the agricultural information profession by providing a platform for agricultural information exchange through:

The *Quarterly Bulletin of IAALD*, which has been published for almost 50 years

Agricultural Information Resource Centers: A World Directory, published every five years, the most recent edition, for the year 2000, in hard copy and CD-ROM versions

- **IAALD seeks to improve communication through:**

- Networking
- e-mail
- Internet connections
- Listservs
- Discussion panels
- Web site
- Individual articles from the *Quarterly Bulletin* accessible via ingenta

- **IAALD supports professional development through:**

Co-organization and co-financing of short-term workshops and training courses at national or regional level

Encouraging and facilitating participation of information professionals in training activities

Co-organization with national and regional associations of thematic conferences and congresses

Organization of quinquennial World Congresses (next one, jointly with USAIN (US Agricultural Information Network), in Lexington, Kentucky, USA in May 2005)

Providing information on internships and sources of funding

- **IAALD seeks to foster collaboration through:**

Facilitating resource sharing (expertise, knowledge, funds)

Forming partnerships with other professional associations

Collaboration with regional and national associations, as well as international agencies and donor organizations

Who are IAALD's members?

The International Association of Agricultural Information Specialists has members (institutions and individuals) in 80 countries

IAALD offers the following categories of membership:

Individual professionals worldwide, with special arrangements for members in developing countries

Institutional members, including but not limited to:

- National, regional and international associations of agricultural information specialists
- Libraries
- Documentation centres
- Research and education institutions
- Publishers
- Internet and communication specialists
- Extension organizations
- Other official bodies

Honorary members, recognized as having made an outstanding contribution to furthering the agricultural information profession worldwide
